that would support students, they changed the daily schedule so that grade level teams shared an 80-minute block of collaborative planning time and provided professional development on strategies for student-engaged assessment. ELA teachers also attended a three-day summer institute, which introduced them to the curriculum modules and, during the school year, attended institutes on strengthening writing with models and critique, and research skills.

Positive Impacts

“Improving the classroom culture throughout the school and building students’ growth mindset really created a foundation for success,” according to Becky Martinez, the school’s EL Education coach. Once teachers saw how much students wanted to learn and what they were capable of, they got even more excited about showcasing student work. Then they began to enhance the curriculum modules so that student work would benefit a real audience. For example, third-grade teachers teaching a module called “Overcoming...
"EL Education took the time to help us really change our teaching practices and school structures, first in baby steps and then in great strides."

Principal

Results

A walk-through assessment of how many students were asking questions, working on task, and contributing to the classroom dialogue conducted in the fall of 2015 and spring of 2016 showed that the percentage of students demonstrating these engagement behaviors increased by more than 20% across all classes.

Centennial students are also becoming better readers and writers. In 2014-2015, just 15.9% of students in grades 4 and 5 were meeting or exceeding proficiency expectations (Levels 4 and 5) on the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment. In 2015-16, reading proficiency rose to more than 33% in grades 4 and 5—a 17.4 percentage point gain. Denver Public Schools scores rose just 3.9 percent, and Colorado scores remained roughly the same in comparison.

Based on these results, leaders expanded their implementation of the EL Education Language Arts curriculum to include all grades (K-5) in 2016-17.

EL Education provides schools and districts with professional development, coaching, and resources to support three types of partnership:

» School network partners: Schools that implement EL Education’s school model and its unique approach to curriculum, instruction, culture and character, assessment, and leadership.

» Literacy partners: Districts and schools that adopt EL Education’s K-8 Language Arts Curriculum and work with EL Education to support its implementation and impact.

» Professional services: Districts and schools that seek targeted professional development and coaching on EL Education’s core practices.
