

Hi Marci,

The writing data highlighted a significant weakness in writing conclusions, so that will be my focus over the next several projects. In science we will look at examples of students work with strong conclusions and I'll add the conclusion section of the writing rubric to the next project. In 8th grade math the process will be similar. We have a linear functions write up coming up in the next few weeks. Adding conclusions to the rubrics will help both students and me focus on this skill.

Let me know if you have questions,

Lucas
